Washington State Department of Transportation

SR 520 Bridge Replacement and HOV Program

STATE ROUTE 520

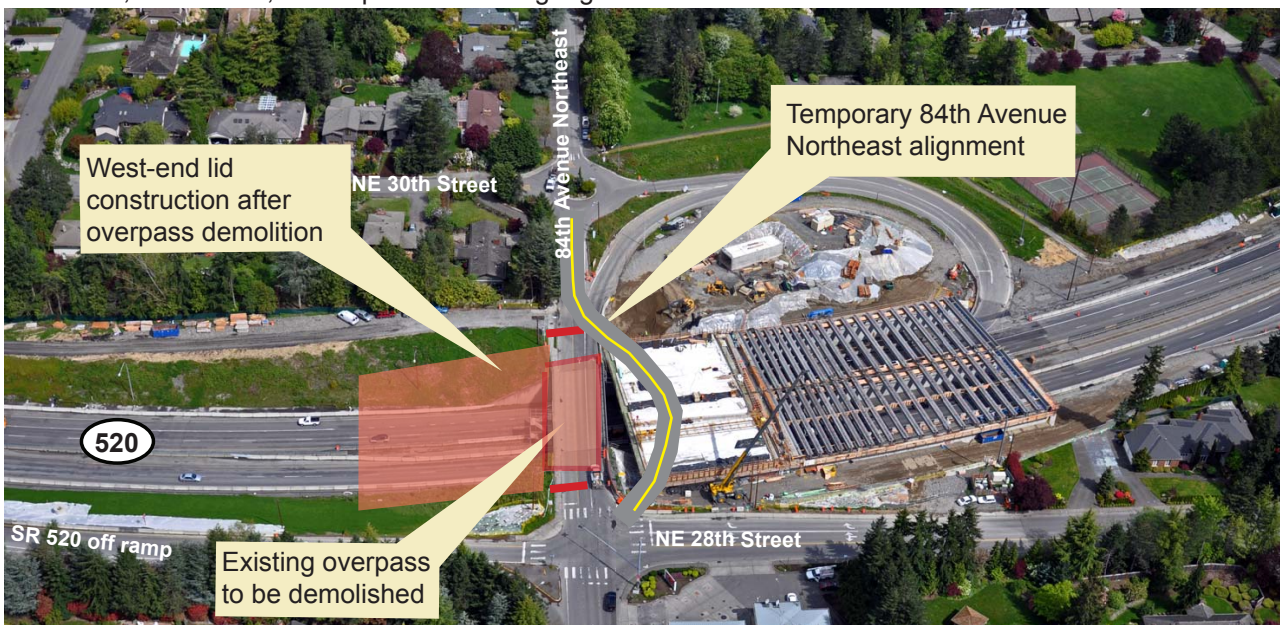
Medina to SR 202: Eastside Transit and HOV Project

NOTICE: Traffic shift at 84th Avenue Northeast

On Friday, June 22, 84th Avenue Northeast traffic over SR 520 will be shifted onto a section of the new lid so that crews can demolish the existing 84th Avenue Northeast overpass. That demolition is currently scheduled for July 13-16 when SR 520 will again be closed between I-405 and Montlake Boulevard. Until the shift occurs, crews will be busy completing the earthwork, paving and striping necessary to safely move traffic from the existing roadway onto the lid.

This will be a temporary traffic change so that crews can remove the existing 84th Avenue Northeast overpass and make room for construction of supporting walls that will hold up the lid deck to the west of 84th Avenue Northeast. This shift will be in place until 2013 when traffic is shifted into the final roundabout configuration.

This work is scheduled to occur mostly during daytime hours. However some nighttime work will be required, especially when the bridge is demolished. At that time, residents should expect to hear the sounds of concrete demolition, trucks, bulldozers, excavators, back-up alarms and light generators.



Mark your calendars for the upcoming full closures of SR 520:

- Friday, July 13 - Monday, July 16 - crews will demolish the 84th Avenue Northeast overcrossing.
- Friday, Aug. 10* - Monday, Aug. 13* - crews will install a new fish-friendly culvert and demolish a portion of the Bellevue Way Northeast overcrossing.
- Friday, Sept. 7* - Monday, Sept. 10* - crews will install a new fish-friendly culvert east of 108th Avenue Northeast.

** **Tentative:** Dates will be confirmed prior to each closure.*

The Eastside Transit and HOV Project will complete and improve the 8.8-mile HOV system from Evergreen Point Road in Medina to the SR 202 interchange. The improved six-lane corridor will include two general-purpose lanes and one transit/HOV lane in each direction.
